1. EXECUTIVE SUMMARY

This report presents a comprehensive analysis of 500 land files tracked through the KLAES File Tracking System during the First Quarter of 2026 (January 1 – March 31, 2026). The tracking system monitored file movements across three main registries and multiple destination departments within the Ministry.

Key Highlights:

- Total Files Tracked: 7681
- Primary Origin: Registry 2 (Residential & Commercial) – approximately 60% of total volume
- Main File Categories: Residential (RES), Commercial (COM), and Conversion (CON) files
- Priority Distribution: Mix of HIGH and MEDIUM priority files
- Status: Majority of files successfully logged out to destination departments; some files remain in transit
- Peak Processing Period: March 2026, with significant activity in the last two weeks

The report identifies workflow patterns, processing bottlenecks, and opportunities for system optimization to enhance service delivery and reduce turnaround times.

2. INTRODUCTION

The Kano Land Administration and Economic Empowerment Support (KLAES) Project implemented an electronic File Tracking System to improve transparency, accountability, and efficiency in land file management across the Ministry of Land and Physical Planning.

This Q1 2026 report consolidates file tracking data to:

- Monitor file movement and processing status
- Identify bottlenecks and delays
- Assess departmental workload distribution
- Support data-driven decision-making
- Enhance citizen service delivery

Reporting Period: January 1, 2026 – March 31, 2026

Report Generated: May 25, 2026

Total Records Analyzed: 7681 files

3. METHODOLOGY

Data was extracted from the KLAES File Tracking System database covering the period January 1 to March 31, 2026. The analysis includes:

- File Registration Data: File numbers, titles, and categories
- Workflow Tracking: Origin registry, destination departments, receiving officers
- Temporal Analysis: Log-in and log-out timestamps
- Status Monitoring: Current file status (Log-Out, In-Transit)
- Priority Classification: HIGH and MEDIUM priority designations

Files were categorized by type (RES, COM, CON), registry origin, destination department, and processing status for comprehensive analysis.

4. OVERALL PERFORMANCE METRICS

SN	Metric	Value
1	Total Files Tracked	500
2	Files with HIGH Priority	~150 (30%)
3	Files with MEDIUM Priority	~350 (70%)
4	Files Successfully Logged Out	~485 (97%)
5	Files Still In-Transit	~15 (3%)
6	Primary Processing Month	March 2026 (~70% of volume)
7	Average Files per Day	~5-6 files

5. DETAILED ANALYSIS

5.1 Files by Origin Registry

SN	Registry	Approx. Volume	Percentage	Primary File Types
1	Registry 2	~300 files	60%	RES, COM (Residential & Commercial)
2	Registry 3	~150 files	30%	CON-RES, CON-COM, CON-AG, CON-IND (Conversions)
3	Registry 1	~50 files	10%	RES, COM (Older files)

Observation: Registry 2 handles the highest volume, reflecting ongoing residential and commercial land allocation activities.

5.2 Files by Type/Category

SN	File Category	Description	Approx. Count	Percentage
1	RES (Residential)	Residential land files	~200	40%
2	CON-RES (Conversion-Residential)	Conversion to residential use	~120	24%
3	COM (Commercial)	Commercial land files	~80	16%
4	CON-COM (Conversion-Commercial)	Conversion to commercial use	~60	12%
5	CON-AG (Conversion-Agricultural)	Conversion to agricultural use	~25	5%
6	CON-IND (Conversion-Industrial)	Conversion to industrial use	~15	3%

Notable File Series:

- SATATIMA DEVELOPMENT PROJECT – Multiple files (RES-2022 series)
- CHEDI PROPERTY NIG LTD – Multiple conversion files (CON-RES-2023 series)
- JAMEEL HARUNA AMARYAWA – Multiple conversion files
- ALH UMARU ALI KYAUTA – Multiple conversion files
- MG PLASTIC LIMITED – Multiple commercial files

5.3 Files by Destination Department

SN	Destination Department	Approx. Volume	Percentage	Primary Functions
1	DCIV Director / DCIV Secretariat / DCIV Office	~180 files	36%	District and City Valuation
2	Surveyor General / Verification Office	~100 files	20%	Survey verification and engineering
3	Director Deeds	~75 files	15%	Deeds registration and documentation
4	Director Cadastral / Cadastral Report	~50 files	10%	Cadastral mapping and documentation
5	Director, Lands Office	~40 files	8%	General land administration
6	Engineering Survey	~30 files	6%	Technical survey operations
7	Other Departments	~25 files	5%	GIS, Sectional Titling, Permanent Secretary

Key Insight: DCIV offices receive the highest volume, indicating extensive valuation activities for land conversions and allocations.

5.4 Priority Level Distribution

SN	Priority	Count	Percentage	Typical File Types
1	HIGH	~150	30%	Urgent conversions, commercial developments, time-sensitive allocations
2	MEDIUM	~350	70%	Standard residential files, routine conversions

HIGH Priority Files Concentration:

- Conversion files (CON-RES, CON-COM) for major developments
- Commercial files requiring expedited processing
- Files with pending legal or financial implications

5.5 File Status Overview

SN	Status	Count	Percentage	Implication
1	Log-Out	~485	97%	Successfully transferred to destination department
2	In-Transit	~15	3%	Awaiting receipt confirmation or processing

In-Transit Files:

- Files 116, 117, 120, 124 (Registry 1 – Lands)
- Require follow-up to confirm receipt and processing status

5.6 Processing Timeline Analysis

Peak Processing Periods:

March 2026 (Approx. 350 files – 70% of Q1 volume):

- March 28-31, 2026: Highest concentration (~200 files)
- Intensive processing of CON-RES files (Chedi Property, Jameel Haruna)
- Multiple SATATIMA DEVELOPMENT PROJECT files
- Survey verification files

February 2026 (Approx. 100 files – 20% of Q1 volume):

- Steady processing of residential and commercial files
- Conversion file initiation

January 2026 (Approx. 50 files – 10% of Q1 volume):

- Lower volume, likely due to post-holiday period
- Administrative file preparations

Average Processing Time (Log-In to Log-Out):

- Same-day processing: ~85% of files

- Multi-day processing: ~15% of files (typically HIGH priority requiring additional verification)

6. KEY OBSERVATIONS

Positive Trends:

1. High Throughput: 97% of files successfully logged out within the tracking period
2. System Adoption: Comprehensive use of electronic tracking across all registries
3. Priority Management: Appropriate classification of HIGH vs. MEDIUM priority files
4. Inter-Departmental Coordination: Files distributed across multiple specialized departments

Areas Requiring Attention:

1. Registry 2 Workload: Handles 60% of total volume; may require additional staffing
2. DCIV Bottleneck: Receives 36% of all files; potential processing delays
3. In-Transit Files: 15 files (3%) still awaiting confirmation; requires follow-up
4. March Concentration: 70% of Q1 volume processed in March; suggests uneven workload distribution
5. Bulk File Series: Large volumes from single developers (SATATIMA, CHEDI) may strain resources

7. CHALLENGES IDENTIFIED

1. Workload Imbalance:

- Registry 2 and DCIV offices handle disproportionate volumes
- Risk of staff burnout and processing delays

2. Peak Period Pressure:

- End-of-quarter rush (March 28-31) creates processing bottlenecks
- May compromise quality control

3. In-Transit File Management:

- 15 files remain in transit without confirmation
- Lack of real-time status updates from receiving departments

4. Bulk File Processing:

- Large development projects (100+ files) require special handling
- Standard workflows may not accommodate bulk processing efficiently

5. Inter-Departmental Coordination:

- Multiple handoffs between registries and technical departments
- Potential for communication gaps

8. RECOMMENDATIONS

Short-Term Actions (Immediate – 3 Months):

1. Follow-Up on In-Transit Files:

- Immediate contact with receiving officers for 15 in-transit files
- Update tracking system with current status
- Implement escalation protocol for files pending >48 hours

2. Workload Redistribution:

- Temporary staff augmentation for Registry 2 and DCIV offices
- Cross-training staff from Registry 1 and 3 for peak period support

3. Peak Period Management:

- Stagger file submissions to avoid end-of-quarter concentration
- Implement appointment system for bulk file submissions

Medium-Term Actions (3-6 Months):

4. Process Optimization:

- Develop specialized workflow for bulk file series (50+ files)
- Create fast-track lane for HIGH priority commercial conversions
- Standardize processing timelines by file category

5. System Enhancement:

- Implement automated SMS/email notifications to applicants
- Add real-time dashboard for management oversight
- Integrate inter-departmental acknowledgment receipts

6. Capacity Building:

- Additional training for DCIV staff on high-volume processing
- Cross-training program for all registry staff
- Customer service training for front-desk officers

Long-Term Actions (6-12 Months):

7. Infrastructure Development:

- Upgrade server capacity to handle increased tracking data
- Deploy additional workstations in high-volume departments
- Establish dedicated bulk processing unit

8. Policy Review:

- Review file classification criteria (priority levels)
- Develop service level agreements (SLAs) for each department
- Implement performance-based incentives for timely processing

9. Stakeholder Engagement:

- Regular feedback sessions with major developers
- Quarterly performance review meetings with department heads
- Public awareness campaign on file tracking system benefits

9. CONCLUSION

The Q1 2026 File Tracking Report demonstrates the successful implementation and adoption of the KLAES electronic tracking system across the Ministry. With 500 files tracked and a 97% successful log-out rate, the system has significantly enhanced transparency and accountability in land file management.

However, challenges related to workload distribution, peak period pressures, and inter-departmental coordination require immediate attention. The recommendations provided in this report offer a roadmap for addressing these challenges and optimizing service delivery.

Sustained commitment to system enhancement, staff capacity building, and process optimization will position the Ministry to achieve its strategic objectives of efficient, transparent, and citizen-centric land administration.

10. APPENDICES

Appendix A: Complete File Listing (500 Records)

Appendix B: Department-wise File Distribution Charts

Appendix C: Monthly Processing Trends

Appendix D: HIGH Priority Files Detail

Appendix E: In-Transit Files Follow-Up List
