CONSOLIDATED REPORT

Year: 2026 | Date: 2026-04-01 - 2026-06-30

Q2 2026 File Commissioning Consolidated Report

**Department: Land Department & One Stop Shop
(OSS) Unit**

**System: Kano State Land Administration Enterprise
System (KLAES)**

Period: April 1, 2026 – June 30, 2026

Contents

1. EXECUTIVE SUMMARY	3
2. DETAILED BREAKDOWN BY DEPARTMENT & UNIT	3
2.1 Land Department vs. OSS Unit Performance	3
2.2 Breakdown by Application Type.....	3
3. GEOGRAPHIC DISTRIBUTION (LGAs)	4
4. KEY OBSERVATIONS & SYSTEM PERFORMANCE.....	4
5. RECOMMENDATIONS	4

1. EXECUTIVE SUMMARY

This report details the performance of the KLAES Automated File Commissioning Module across the Land Department and the One Stop Shop (OSS) Unit for the Second Quarter (Q2) of 2026. The quarter recorded a massive surge in file commissioning, driven by the state's urban renewal projects, direct allocations, and the regularization of existing properties.

During Q2, a total of 1,450 files were successfully commissioned through the KLAES platform, bringing the Year-To-Date (YTD) total to 4,840 files (surpassing the 3,390 milestone recorded at the end of May). The automation has reduced the average file commissioning turnaround time from 14 days to just 3.5 days, ensuring zero human interface and eliminating legacy bottlenecks.

2. DETAILED BREAKDOWN BY DEPARTMENT & UNIT

2.1 Land Department vs. OSS Unit Performance

SN	Department / Unit	Q2 2026 Commissioned	% of Q2 Total	YTD Total (Jan - Jun)	Primary Workflow
1	Land Department	980	67.50%	3,250	Standard Allocation, Direct Conversion, Subdivision
2	One Stop Shop (OSS)	470	32.50%	1,590	Fast-tracked Applications, New OSS Recertification
	GRAND TOTAL	1,450	100%	4,840	

2.2 Breakdown by Application Type

SN	Application Category	Q2 Count	Information Products Generated
1	New File Commissioning	650	Acknowledgment, File Commissioning Sheet, LGA Confirmation
2	OSS File Commissioning	470	OSS Bill, OSS Acknowledgment, OSS File Commissioning Sheet
3	Commissioning of Temporary Files	180	Temporary File Commissioning Sheet

4	Recertification (Existing Files)	150	RofO Recommendation, Change of Purpose/Name Acknowledgment
	TOTAL	1,450	

3. GEOGRAPHIC DISTRIBUTION (LGAs)

The Q2 file commissioning was heavily concentrated in the fast-growing peri-urban axes of Kano State, reflecting the government's spatial development plans:

1. Kumbotso: 35% (Highest volume due to massive residential expansion)
2. Ungogo: 25% (Driven by commercial and residential allocations)
3. Dawakin Tofa / Tofa: 15%
4. Dawakin Kudu: 12%
5. Other LGAs (Tarauni, Gwale, Fagge, etc.): 13%

4. KEY OBSERVATIONS & SYSTEM PERFORMANCE

- Seamless Interoperability: The automated generation of the Lands 12 form and immediate digital routing to the Cadastral and Survey departments upon file commissioning has eliminated physical file transit delays.
- OSS Efficiency: The OSS Unit handled 32.5% of the volume with a 100% success rate in generating automated Bills and Acknowledgments at the point of entry, significantly boosting Q2 Internally Generated Revenue (IGR) collection.
- Parcel Updates Integration: The new automation of Parcel Updates (Subdivision, Merger, Extension) successfully processed 120 files in Q2, seamlessly linking back to the original commissioned file records.

5. RECOMMENDATIONS

1. Server Scaling: Given the 45% increase in Q2 commissioning volume compared to Q1, ICT should evaluate the database server load to ensure the KLAES platform maintains sub-second response times.

2. LGA Integration: Explore API integration with Local Government Authorities for real-time validation of the LGA Confirmation Sheets to further reduce processing time.
